Model BJCPB Includes:
5 Qt. Stainless Steel Mixing Bowl and Stainless Steel Base

5 Qt. Stainless Steel Pivoting Mixing Bowl

Use & Care

Meet Meredith

Welcome and thank you for purchasing from my Blue Jean Chef Housewares and Kitchen Collection! I have always loved food! Luckily for me, I've been able to turn this love of food into a career in cooking and have spent the last twenty-five years sharing this passion with family, friends, students, co-workers and anyone around me. I began working in the culinary world as baker in a small independent bistro in Canada. Then after culinary school, I became a line cook in Michelin-starred restaurants in France and California. I've worked as an instructor at a culinary school, as a test kitchen manager and recipe developer, as a home cooking teacher, as a live television cooking personality and I've authored 8 cookbooks. My passion for teaching led me to create Blue Jean Chef® as a vehicle to reach more people not only through my website, but through cooking school videos, cookbooks, social media and now kitchen equipment and housewares. My promise to you is that every product that bears the Blue Jean Chef® name has been carefully considered, touched and tested by me. I believe good kitchen equipment is a key ingredient to success and your success is what matters most.

"I created Blue Jean Chef®, hoping to help you become as comfortable and confident in your kitchen as you are in blue jeans."

Before Your First Use

Hand wash the Pivoting Mixing Bowl and Stainless Steel Base in warm water with a mild dishwashing soap using a soft sponge or nylon pad. Rinse and dry thoroughly.

Using Your Pivoting Mixing Bowl

The BJC Pivoting Mixing Bowl comes as a two-piece set - a 5 Qt. Stainless Steel Mixing Bowl and a Stainless Steel Base.

To use, place the Stainless Steel Base on your counter or other stable, flat surface. The silicone band around the bottom keeps the Stainless Steel Base from sliding while you are mixing.

Grasp the Pivoting Mixing Bowl by the handle then place it onto the Stainless Steel Base at an angle you find comfortable or desirable for mixing. The silicone buttons on the top of the Stainless Steel Base hold the Pivoting Mixing Bowl in position while you mix. To reposition the Pivoting Mixing Bowl, simply lift and reset it onto the Stainless Steel Base.

Your Pivoting Mixing Bowl and Stainless Steel Base are freezer and refrigerator safe.

Do not use your Pivoting Mixing Bowl or Stainless Steel Base in the microwave, oven, or directly on your stovetop. This can damage the Pivoting Mixing Bowl or Stainless Steel Base.

Cleaning

Your Pivoting Mixing Bowl and Stainless Steel Base are dishwasher safe, however hand washing is recommended to retain the original luster and shine and to prevent discoloration of the silicone handle or silicone on the Stainless Steel Base.

To clean, simply use warm water a mild dishwashing soap and a soft sponge or nylon pad.

Do not soak the Pivoting Mixing Bowl or Stainless Steel Base in water for a long period of time. The chlorine and mineral content of your water, especially iron, can cause corrosion or discoloration.

Removing Stains

We recommend the use of stainless steel cleaners to remove stubborn stains from your Pivoting Mixing Bowl and Stainless Steel Base, such as Bon Ami®, Cameo®, Barkeeper's Friend® or Bio-Cleaner®.

Do not use stainless steel cleaner on the silicone handle or silicone on the Stainless Steel Base.

Warnings and Safeguards

Do not use your Pivoting Mixing Bowl or Stainless Steel Base in the microwave, oven, or directly on your stovetop. This can damage the Pivoting Mixing Bowl or Stainless Steel Base.
